CATEGORY

LINES

Our exclusive PET bottling line for still and sparkling water is designed to operate at a speed of 16,000 bottles per hour, currently configured for the 500 ml format and for packaging in bundles and American boxes.

Tailor-made customization

BBM Service offers a wide range of customization options for the line according to the specific needs of the customer, both in terms of formats and packaging types. Each individual component of the line can be modified or adapted to ensure maximum efficiency and operational satisfaction.

Machine replacement

If a machine in the configuration does not meet expectations, BBM Service is committed to replacing it with a solution more suited to your needs.
